

Covid-19 Update – Jan 2021

Happy new year. Within the last week and distribution of our last email message, we have seen fresh outbreaks of Covid into other states as well as notification of a new strand which is more infectious.

This message is a reminder to you all to remain Covid Safe no matter where you live or work. Remember to maintain good personal hygiene, if you car pool to and from work then make sure you all follow safe hygiene practices. If you work in close proximity to co-workers then think about your safety, your Labourforce representative may be able to assist you with face masks.

Again, if you do not feel well, or if you have been in contact with someone who is sick or you have visited an area where there has been reported cases, **PLEASE DO NOT ATTEND WORK.** Management of Labourforce would rather you cancel your shift and get tested than find out that your actions resulted in others getting sick.

If you have any questions than feel free to contact your Labourforce representative or contact your state health department.

Regards

Labourforce Management
